**Dark hour restriction when passing Södertälje kanal for vessels with
bridge in front of vessel.**

BACKGROUND

Due to bridge located in front of vessel the control and visibility of hull is restricted. During the construction of the new lock there are different obstructions during the kanal passage which could be damaged if not observed.

DECISION

All vessels with bridge in front of vessel should fulfill following condition when passing the channel and lock:

- The passage of Södertälje kanal should be made in daylight..
