Contact details

MSW Support

MSW Support is available around the clock and can answer questions about the reporting in the MSW Reportal.

Telephone +46 771 40 00 50

E-mail: support@mswreportal.se.

For authority-specific issues, please contact the specific authority.

Swedish Coast Guard

The Swedish Coast Guard manages questions linked to notifications in advance for border control and maritime security.

Telephone: +46 8 578 976 30 (Swedish Coast Guard Maritime Clearance)

E-mail: sweden24@kustbevakningen.se

Swedish Maritime Administration

Maritime Administration manages questions related to vessel application, pilotage and fairway declaration.

Telephone: +46 10 478 58 00

E-mail: portcall@sjofartsverket.se

Swedish Customs Service

Customs Service manages questions related to the time limits that apply and the information which must be provided.

Telephone: +46 771 520 520 (TullSvar daytime)

Telephone: +46 8 456 65 61 (Fartygsklarering daytime)

Telephone: +46 8 456 65 60 (Klarering evening/night)

E-mail: fartygsklarering@tullverket.se

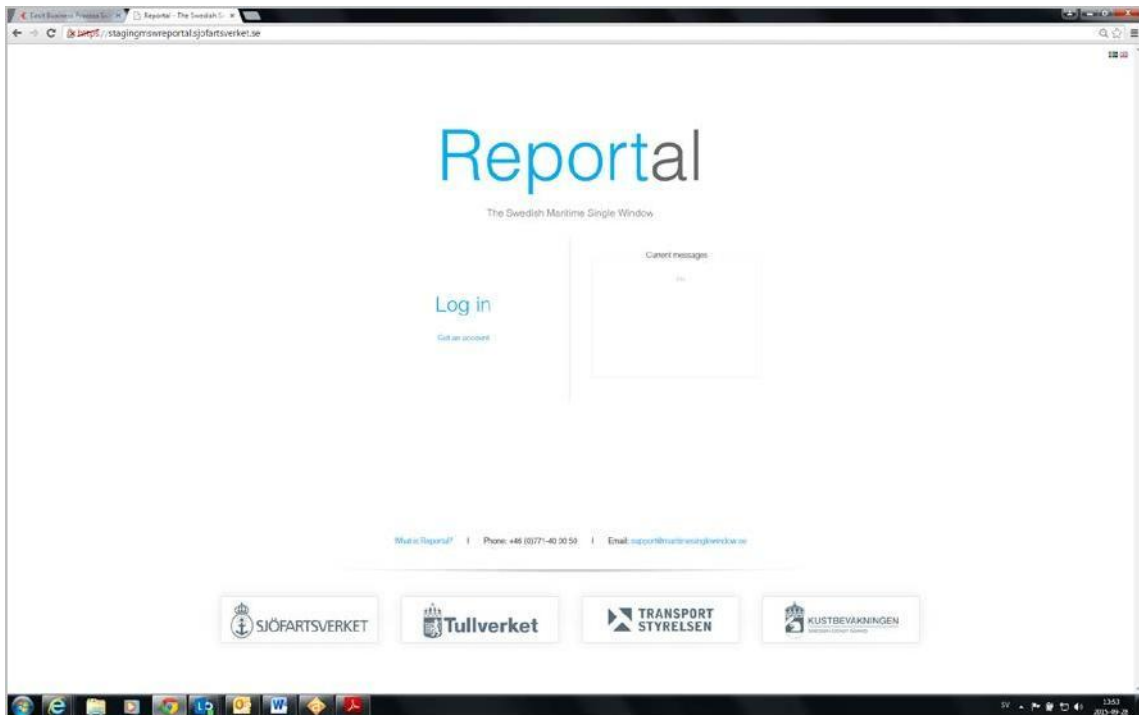

Swedish Transport Agency

Swedish Transport Agency manages questions related to regulations.

Telephone: 0771-503 503

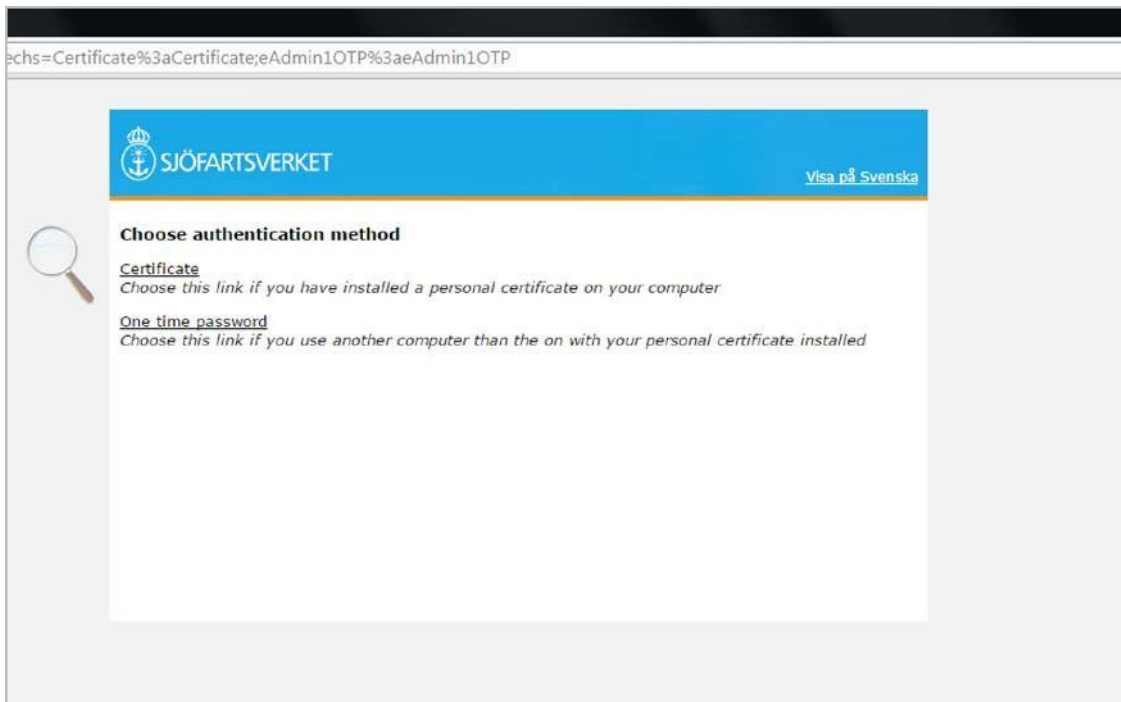

E-mail: kontakt@transportstyrelsen.se

Goods to declare

When you report, it is important that you select the correct "purpose of call". The most common intentions of calls that are related to customs are "Unloading, foreign goods", "Loading foreign goods" and "Taking supplies".

Unloading cargo

If the vessel arrives with cargo that doesn't need customs clearance (only domestic cargo), select “**Unloading, domestic goods**” for “Purpose of call”. You click “YES” for reporting to Customs. Then you should not report anything under the tab “Goods to declare”. Supporting documents will be added under the "Documentation" tab.

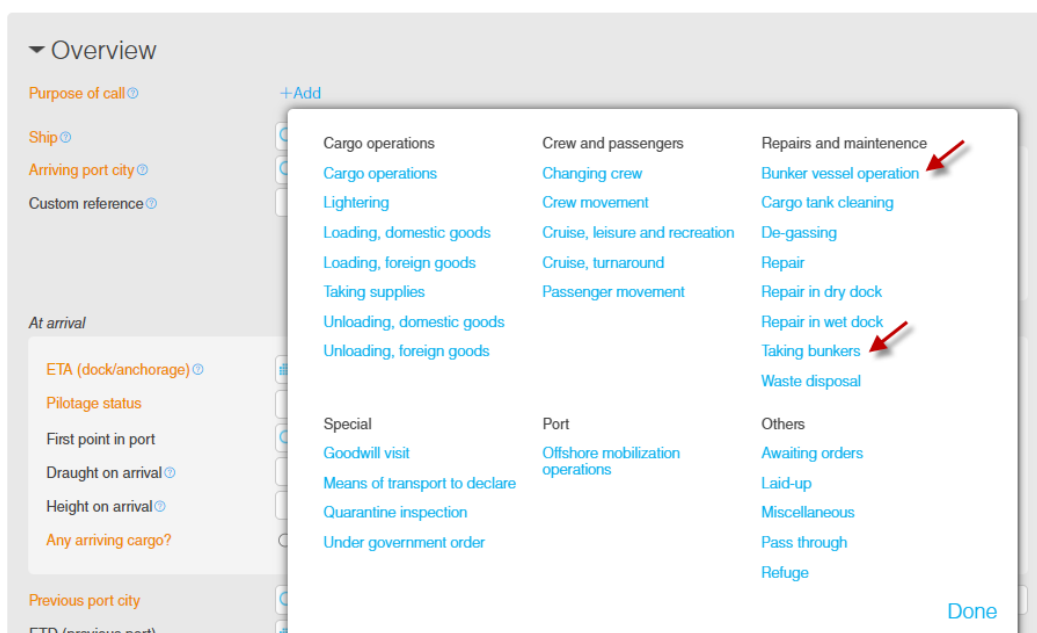

Crew's Effect and Ship Stores will always be reported if you are required to report to the Customs.

If the vessel arrives with cargo that does need customs clearance, select “**Unloading, foreign goods**” for "Purpose of call". You click "YES" for report to Customs. Then you need to report the "total weight of all cargo to unload" under the tab “Goods to declare” and the cargos status, etc. (according to the user guide). Supporting documents will be added under the "Documentation" tab. Crew's Effect and Ship Stores should always be reported if reporting is required Customs.

Loading cargo

If the vessel departs with cargo that dosen't need customs clearance (only domestic cargo), select “**Loading, domestic goods**” for “Purpose of call”. You click "YES" for reporting to Customs. Then you should not report anything under the tab “Goods to declare”, supporting documents will be added under the "Documentation" tab. Crew's Effect and Ship Stores should always be reported if reported to the Customs.

If the vessel departs with cargo that does need customs clearance, select “**Loading, foreign goods**” for "Purpose of call." You click "YES" for reporting to the Customs, supporting documents will be added under the "Documentation" tab. Crew's Effect and Ship Stores should always be reported if reported to Customs.

The red arrows indicate the two options when you report a bunker operation. “Bunker vessel operation” and “Taking bunkers”.

ETA means your estimated time for arrival to dock or anchorage.

ETA is NOT estimated start of pilotage, even if you have ordered a pilot.

ATA is normally entered automatically by the vessel's AIS and cannot be changed.

Should ATA for some reason still not be entered, you, as the rapporteur and acting on behalf of the master, are responsible for setting ATA manually.

ONCE YOU SET ATA AND SIGN THE VISIT YOU CAN NEVER CHANGE IT AGAIN!

Show the ATA field

Under the question mark icons, you can get more information about what to specify.

You are obliged to report to Customs if there are EU goods or non-EU goods on board, if there is ship stores or if the crew has belongings to report. Check the box "YES" for reporting to Customs, select the purpose of call and report Crew's Effect and Ship Stores.

Regardless of the purpose of call you should always report Crew`s Effect and Ship Stores when you are obliged to report to Customs.

To conclude if you are dispensated from customs reporting, see §§ 20-24 Tullordning (TFS 2000:20). You can read more at [Swedish customs](#). If you are required to report to the Coast Guard, select the option "Yes" for "Obligated to report to Coast Guard".

Which type(s) of advance notification you need to provide depends on the purpose of call, type of vessel, and if there are any special permits or exemptions.

ISPS notification

The rules regarding maritime security aim to protect the maritime sector. The regulations require vessels with gross tonnage over 500 tonnes that intend to call at a Swedish port to provide information pertaining to maritime security.

ISPS (International Ship and Port Facility Security Code) contains regulations adopted by IMO, International Maritime Organization. This means that the regulations we apply in Sweden apply to ports all over the world. The aim is to create secure transport between ports for vessels and their crews, passengers and cargo. The Swedish Coast Guard takes care of advance notification clearance in relation to maritime security on behalf of the Swedish Transport Agency.

Schengen

The rules regarding border control are the same for all EU and Schengen countries. The rules are found in EU legislation (Schengen Borders Code). The Code specifies specific provisions for marine traffic including the individuals who work on the vessel or who are passengers.

Vessels that arrive from or that on the way to a foreign location are obligated to submit information on the vessel and the individuals who are on board to the Swedish Coast Guard.

Regular shipping service authorisation

EU RSS (regular shipping services) status is dependent on authorisation. All goods aboard an RSS ship must have EU goods status or be the object of a transit procedure. A comparison is usually drawn with a bridge (e.g. the Öresund Bridge).

An RSS ship carrying only EU goods is exempted from reporting to Swedish Customs via MSW Reportal.

If there are **non-EU goods** aboard, these must be the object of a transit procedure as per art. 295 b of Commission Implementing Regulation (EU) 2015/2447. This must be either the normal procedure under the new computerised transit system (NCTS) or a simplified transit procedure such as when using an electronic transport document.

Exemption from reporting to Swedish Customs does not apply to an RSS ship with an ETD issued under § 6, chap. 4 of the Customs Proclamation (tullordningen). In this case, full ship reporting is required in MSW Reportal. RSS may not traffic free zones or make calls outside the EU.

Where there is no obligation to report to Swedish Customs (RSS ship carrying only EU goods and/or carrying non-EU goods that are being transited under the normal procedure, NCTS), complete as follows:

- “Obligated to report to Customs” = No.
- Tick the box “This visit is part of a RSS time table” (no “authorization number” is needed – no field is shown).

The screenshot shows the 'Overview' section of the MSW Reportal form. On the left, there are input fields for 'Purpose of call', 'Ship', 'Arriving port city', and 'Custom reference', with a '+Add' button. On the right, the 'Obligated to report to' section is visible, featuring a 'Customs' field with radio buttons for 'Yes' and 'No' (selected). Below this, a checkbox labeled 'This visit is part of a RSS time table' is checked. A yellow warning box contains the text: 'You have indicated that you are not obliged to report to Swedish Customs and this call is a part of an RSS timetable. This is only a valid option if the ship has a valid EURSS permit and any non-Union goods are transited under the normal procedure.' At the bottom, there is a 'Coast guard' field with radio buttons for 'Yes' and 'No'.

Where there is an obligation to report to Swedish Customs, complete as follows:

- “Obligated to report to Customs” = Yes.
- Tick the box “This visit is part of a RSS time table”.
- An “authorization number” must be entered (the field RSS authorization number is shown when this combination is used).

At barge visit

Tugboat at arrival ⓘ Tugboat at departure ⓘ

- Make a separate vessel report on the tug/tugs, if any.
- Make pilot orders on this vessel report when the tugs are designated. If the tug and barge port call consists of more than 1 tug or more than 1 barge, contact the pilot ordering center.
- Fairway declaration should only be submitted for the barge, provided that the tug does not have its own cargo.
- The field for crew members and master must not be left empty. Please enter the tugboat's crew members and master on this vessel report.
- Since the barge is a cargo carrier, you must report the port call to Swedish Customs (provisioning and untaxed provisions must be reported on the tugs vessel report).
- Note! that ATA/ATD must be entered manually for the barge.

[Advanced](#)

When a barge arrives at a Swedish port together with a tug, one ship notification shall be made for the barge and one for the tug. You start by making a notification for the barge and when this is complete, you create a new call for the tug.

When you make the call for the barge, mandatory fields will appear under the name of the barge. In these fields, you fill in the name of the tug to be used in connection with the barge.

Because the barge is the cargo carrier, the reporting is due to Customs regulations. On this call, you must report the cargo and check the box "nothing to declare" for Ship Stores and Crew's Effect. Under the crew tab, you have to manually fill in the number of crew members and the master's name. This refers to the tug and must be done in order for the call to be accepted by the system.

Note that ATA/ATD have to be manually reported for the barge.

- Barges - Purpose of call - Unloading/Loading, foreign goods or, for a domestic journey, Unloading/Loading, domestic goods

Ordering of pilot as well as **a fairway dues declaration** shall be reported on the call for the barge. This way, the invoices will be collected on one and same call. On the call for the barge, you must fill in pilotage status "Mandatory pilotage – Pilotage request, if this is the case.

When using a pilot exemption, enter the Pilot exemption certificate on the call for the tugboat.

Should the call cover more than one barge, they should be reported separately. ATA/ATD is set manually for each barge.

Barges are not obliged to perform reporting formalities to the Swedish Coast Guard, which means that you should tick "No" in that field.

As regards Swedish Customs, tugs are subject to reporting formalities if they carry untaxed provisions (Ship Stores/Crew's Effect) or other untaxed goods. Therefore, a separate ship notification must be made for the tug. In order for tugs to be allowed to load ship stores, there must be a visit-ID. Ship stores cannot be loaded for barges.

Tug – Purpose of call – Cargo operations (Unless other untaxed goods (Ship Stores/Crew's Effect) are reported. If this is the case, enter Unloading/Loading, foreign goods.)

Tugs are always subject to reporting formalities to the Swedish Coast Guard (the one exception being domestic travel, except for change of crew), and therefore a separate ship notification must be made for the tug.

At the call for the tug you do not have to order a pilot, and thus as pilotage status you can put "Non mandatory pilotage – No pilotage request“.

NOTE! A call with a barge and a tug, will generate two visit-ID, i.e. two ship notification.

< TESTFARTYG1 → Norrköping

The screenshot shows a web form for reporting a barge visit. At the top, there are navigation links: Sign/Send, Discard, Share, and Log. A warning message states "There are changes to sign". The form is divided into two columns for arrival and departure data.

Field	Value	Unit
Draught on arrival	5	m
Height on arrival	10	m
Any arriving cargo?	<input checked="" type="radio"/> Yes <input type="radio"/> No	
Total weight of cargo to unload	20	ton
Short description of all cargo onboard on arrival	Bananer	
Draught on departure	10	m
Height on departure	20	m
Any departing cargo?	<input checked="" type="radio"/> Yes <input type="radio"/> No	
Short description of all cargo onboard on departure	Bananer	

At the bottom of the form, there are fields for "Previous port city" (PLGDH - Gdansk) and "Next port city" (NLAMS - Amsterdam). Below these are buttons for "Upload document for the entire visit" and "Advanced".

At the very bottom, there are two summary buttons:

- Pilotage/movement**: No pilotage, No movements
- Goods to declare**: No declaration reported, 0 vehicles

When all the required fields are filled in under the overview, the program automatically save the information and the next part is opened.

NOTE! Saved information does not mean that it is sent to all authorities.

▶ Pilotage/movement No pilotage No movements	▶ Goods to declare 0 vehicles
▶ Crew 0 arriving 0 departing	▶ Ship's store No report
▶ Passengers 0 arriving 0 departing	▶ Dangerous cargo None arriving None departing
▶ Documentation No documents	▶ Bunker No report on arrival No report on departure
▶ Security No report	▶ Waste No report Will not report waste receipt.
▶ Health No report	▶ Port Port services
	▶ Expanded inspection Inspection: Not reported
	▶ Fairway declaration No declaration

In part two you report pilotage and movements, crew, passengers, documentation, security, health declaration/sanitary certificate, customs, ship's stores, dangerous goods, waste, expanded inspection and fairway declaration.

Information to the Swedish Coast Guard is reported under crew, passengers, security and health.

Information to the Swedish Customs is reported under crew (Crew's Effect), documentation (additional documents), Goods to declare (information regarding cargo) and ship's stores.

Pilotage status

The pilot order is based on your vessel notification. To order a pilot, enter "Required to employ pilot" or "Not required to employ pilot" in the overview. Enter the "First point in port". That place will automatically end up in the field "Last point in port". This field you can correct but a pilot order or a movement inside the port must then be reported.

The selection of pilot status will control which fields are displayed in the pilot order. Movements inside the port are always shown.

Pilotage exemption

Select pilotage status "Pilot exemption certificate (PEC)" in the Overview. Enter the Pilot exemption certificate for the call, according to the format 00-000 or 00-0000. Alternatively, select a valid certificate in the list. If necessary, it is possible to specify several pilot exemptions for both arrival and departure. Please note when you enter an incorrect pilot exemption certificate, a warning will be displayed.

The field for Master under the tab "Crew" will be pre-populated with the name of the Master who has the specified pilot exemption

Pilotage and movements

Under "Pilotage/movements" you can enter arriving piloting to the selected port of arrival, pilotage and movements inside the harbor as well as departure pilotage. The choices you get depend on what you have selected under "Pilot Status". If you have chosen a dispensation or intend to not order a pilot in the vessel application, only "pilotage and movements will be shown".

Under "[Advanced](#)", you can specify standalone pilotage. Such as pilotage order that occur prior to arrival and not in connection to the first point in port and pilotage order that occur after departure and not in connection to the last point in port.

Arriving pilotage

You specify whether the arriving pilotage should be reported as "Preliminary" or "Final".

Note that when you submit a final pilotage order, the responsible authority starts to schedule a pilot for you. Therefore, it is important that the data in a final pilotage order are correct.

When you click on "[send/sign](#)" you will not be able to change any information. If a pilotage has received the status "Final" it is not possible to remove it from MSW. You need to contact the pilotage planning if you still need to remove it.

Specify where to begin the pilotage, example a boarding point.

When you have selected "pilotage from", the Route Information will be shown. If you want to use the recommended start time, click on "Use time". If no route exists in the system, you must select the desired start time for yourself.

Draught and height are linked to the vessel notification. Whether editing is done here or in vessel application, the numbers will be the same.

For arrival to ports with height obstacles, the actual height is mandatory to report!

- Do not report standalone pilotages

Under “Advanced” you have the opportunity to enter the following:

- Side to wharf
- Pilot boarding side
- Has pilot elevator
- Tug boats
- Message

For cruise traffic this (if possible) should be stated.

Like the earlier system, you can send a message to the pilot planner. Note, however, that the pilot planner currently can’t send any message back.

Once you have submitted your preliminary/final arriving pilotage order it will look like this.

You are expected to make a preliminary order for pilotage 18 hours ahead of the desired pilotage starting time and a definitive pilotage order no later than 5 hours ahead of the desired starting time to avoid order-related fees.

As previously, dedicated deep-sea pilotage orders are to be made to the pilotage centre in Malmö; but to the MSW Reportal should be used in conjunction with port mooring

You will receive a response message from the Swedish Maritime Administration stating that your pilot order is received. The pilotage order will get a specific ID number, so called reference number.

2016-11-24 16:40 - Swedish maritime administration - Pilot order received
Your definite arrival pilot order with ID 990162817 is registered.

When you have sent your pilotage order as final and it's confirmed by the Maritime Administration, you will get a response message with status confirmed.

2016-10-05 15:22 - Swedish maritime administration - Lotsbeställningen har status bekräftad
The pilot order with ID 990162500 is updated to status Confirmed.
Order date 2016-10-05 15:17

Once the pilotage is completed you will receive a link to an invoice copy.

Once you get feedback from the Maritime Administration's pilot planner, you will receive a letter in the tab "Pilotage/movement". The feedback may include, for example, a pilot order's start time, start point, end point, the current draught, current height, etc.

+ Add pilotage/movement in port

After entering all the data, it may look as shown above. Note that you do not get a response message from the Swedish Maritime Administration's if the movement is done without a pilot.

Departure pilotage

There are two ways to report the departure pilotage.

1. Click on "+ Add departure pilotage" and then you get some information from the vessel notification automatically.
2. The easiest and most complete link is "Reverse arrival pilotage". You will get a preliminary order, based on a reverse arriving pilotage with draught, height and time (ETD in the vessel notification).

You specify whether the departure pilotage should be reported as "Preliminary" or "Final". Note that when you submit a final pilotage order, the responsible authority starts to schedule a pilot for you. Therefore it is important that the data in a final pilotage order are correct. When you click on "send/sign" you will not be able to change any information.

When you have selected "pilotage to", the Route Information will be shown. If you want to use the recommended start

time click "Use time". If no route exists in the system, you must select the desired start time for yourself.

Draught and height are linked to the vessel notification. Whether editing is done here or in vessel application, the numbers will be the same.

For arrival to ports with height obstacles, the actual height is mandatory to report!

Ordering of tugs

When you have filled in the information about the pilotage you have the option to order tugs. To access this you need to click on Advanced.

When you press “Advanced” you have one option called “+add tug boat”.

The 'Advanced' section contains three dropdown menus: 'Side to wharf', 'Pilot boarding side', and 'Has pilot elevator', all currently set to 'Unknown'. Below these is a section titled 'Tug boats' with a '+ Add tug boat' button. At the bottom is a 'Message' text area.

Here you can search for a tug or add one by free text. You can choose if the tug will be going as an escort and if not ordering tugs you can choose an tractor if that option is available at that port.

The 'Add Tug Boat' form includes a search bar with a magnifying glass icon, a 'Tug boat (free text)' input field, a 'Type' dropdown menu set to 'Tug boat', and an 'Escort' checkbox.

If you want to change something with you ordered tug you can press “Edit”.

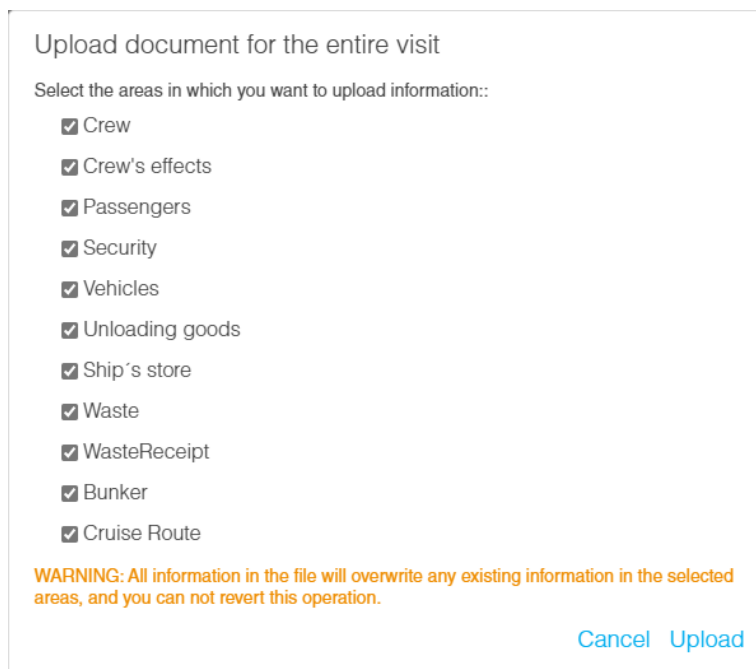

A grey bar containing the text '1. Tug boat - STEEL' and a blue 'Edit' button. Below the bar is a '+Add tug boat' button.

Upload the excel file for the whole visit

An option exists where you can upload the Excel file one time instead of uploading several times below each section.

Click on the option “Upload document for the entire visit”. Here you have the possibility to choose where and which information should be uploaded when using the excel file. As default all boxes are filled in. If you don't want upload a specific part just unbox that one.

If it doesn't exist any errors in the file the whole file will be uploaded, if there are errors you will receive a box telling where this error exists in the excel file. Unfortunately, no other information will be uploaded even if it is correct. You need to correct the error and upload again.

Excel files are now reachable from the visit page.

If you choose to "Upload list" you find Crew's Effects in column 10 (L) of the tab for the Crew list in the Excel file.

If no effects? You must enter NTD (Nothing to declare).

Crew's Effects Enter "NTD" if no effects	*Note that you must enter "NTD" (Nothing to declare) if crew member has no effects.
24 beer, 12 drugs	Effects ineligible for relief from customs duties and taxes or subject to prohibitions or restrictions.
NTD	Comma is used as delimiter and point as decimal mark.
NTD	Eg. 2.1 wine, 0.33 beer, 3 cigarettes
NTD	Use reference data, name or code.
22 1, 24 16	Eg. 1 Cigars, 2 16, 2 FireArms, 3 4
NTD	A description may also be added.
4 13 lions, 2 13 elephant	Eg. 6 Animals Lions, 2 13 Elephants
NTD	
1.1 15, 23.12 7 Gasoline	
NTD	
	Reference data (name, code):
	AlcoholicSpirits = 001,
	OtherAlcoholicSpirits = 002,
	Wine = 003,
	Cigarettes = 004,
	Cigars = 005,
	Tobacco = 006,
	Fuels = 007,
	Lubricants = 8,
	Drugs = 9,
	FleshAndFleshProducts = 10,
	FireArms = 11,
	Ammunition = 12,
	Animals = 13,
	FortifiedWine = 14,
	LightWine = 15,

In the Excel file, you can specify Crew's effect in two ways, either by name of the article or the code for the article. The quantity must be written first, followed by a blank space and then the name or code of the article. Commas are used as separators for reporting of several articles, while the point is used as a decimal point.

For those crew members who have nothing to declare the field Crew's Effect should be left blank. You don't declare anything for articles with quantity zero. The system will automatically check the box "nothing to declare" in MSW. Reportal for these crewmembers.

The types of articles that are available to choose from are the following:

Type of article

Quantity

- Alcoholic Spirits liters
- Other AlcoholicSpirits liters
- Wine liters
- Cigarettes number of article
- Cigars number of article
- Tobacco kilogram
- Fuels liters
- Lubricants liters
- Drugs kilogram
- Flesh and flesh products kilogram
- Firearms number of article
- Ammunition number of article
- Animals number of article
- Fortified wine liters
- Light wine liters
- Beer liters
- Miscellaneous number of article

Waive from reporting passengers manually

You can choose to fill in passengers manually, or report passengers by uploading a completed Excel file under "Upload list".

When reporting transit passengers, enter "-" under "Boarding" and tick the checkbox "Transit passengers".

If you need to report stowaways, tick the checkbox "Stowaway". Pre-populated choices will then be filled in the mandatory fields.

+Add document

If you need to attach documents to any authority, this is done under "Documentation". Here are three fields marked with orange text that are mandatory. You can upload the following documents:

Cargo at arrival

- Cargo manifest (785)
- Customs authorisation (CAN)
- External community transit declaration T1(821)
- House bill of lading (714)
- Internal community transit declaration T2 (822)
- Internal community transit declaration (T2F)
- Manifest – level 2 (LE2)
- Manifest – RSS mixed goods (RS2)
- Manifest with EU-status (KOD)
- Master bill of lading(714)
- Proof of Union status for fishery products (T2M)
- T2L document that proves EU-status (825)

Cargo at departure

- Cargo Declaration at Departure (CDD)

Victualling

- Application for victualling (PRO)
- Request for victualling (BUP)

Other custom documents

- Other custom documents (ZZZ)

Other

- Bunker certificate
- Certificate of registry (COR)
- Oil damage certificate

Provisions: Provisioning must be notified only when applying for victualling for a specific occasion or at request for victualling. If you have general provisioning authorization this shall be dealt with on the basis of the conditions contained in the authorization and should not be reported in MSW.

Oil damage certificate/Bunker certificate: does not need to be reported. However, it should be presented if the authorities request it for control purposes.

T2L: a commodity customs status is determined by whether it is a union or non - union. A union commodity is to be a product originating in, or imported into, the EU. Under certain circumstances, goods status needs to be verified. A common way to prove union status is through T2L.

NOTE! The following is important to remember when you attach documents.

When you choose to attach the document, it is important that you also perform the step "Upload documents". If this step is not performed, the relevant authorities only to get an indication that the document exists and that it will be sent later. To ensure that the right document is attached at the right time, the Customs recommend that you attach documents at the same time as you report other information.

Deletions of document - In this dialog, you can also "Delete" a document. The Swedish Customs saves all documents that have been submitted. If you choose "Remove" the document will be disabled at the Swedish Customs.

If the Swedish Customs has made a decision on an attached document, the Customs does not allow the attached document to be removed. Any attempt to remove the document after a decision will be rejected with an error message. Should such situation arise, it is important that you have the reference number of the document and the document to restore the information in MSW Reportal.

Security

Under “security” it’s necessary to state “Security level”, “Port Facility Security Code”, “ISSC document”, “the last 10 calls” and “ship-to-ship activities”.

You can choose to upload a completed Excel file containing all required parts, or enter the information manually.

Click on the question mark to download the Excel file. You can download the following files:

- EU-template (European standard)
- EU-template with example data to see in what format the information should be specified in
- Swedish template with “drop downs” (locked for editing)

The screenshot shows an Excel spreadsheet with the following data sections:

The Excel file appears above. You can download a blank template or a template filled with sample data to see which format is required. The file contains the "Security level", "Port Facility Security Code," "ISCC document", "last 10 ports" and "ship-to-ship activities".

NOTE! The system can also accept the Danish version of the Excel file.

10 last ports

- Dates should be entered (Accepted format of date in the Excel EU Template 2.0.6 is YYYY-MM-DD or YYYY/MM/DD or YYYY.MM.DD or DD-MM-YYYY or DD/MM/YYYY or DD.MM.YYYY).
- Port must be given to UNLocode example: SEGOT
- Port facility is a code with four digits for example: 1234
- Security level shall be indicated by a number (1,2 or 3) ex 3

“Port facility security code” you can find by signing up for a free account at the following website:

<https://webaccounts.imo.org/Common/WebLogin.aspx?ReturnUrl=https%3a%2f%2fgisis.imo.org%2fPublic%2fISPS%2fDefault.aspx>

When logged in to GISIS, you can click on "Maritime Security" and then "Download" to download the lists in CSV-format (compatible with Excel) with all countries approved port facility security codes.

<https://gisis.imo.org/Public/ISPS/Download.aspx>

- Port facility security code for unknown port: 9999
- Port facility security code for anchorage area: 8888

The screenshot shows the Reportal web interface for vessel TESTFARTYG1. The 'Security' section is expanded, showing the following details:

- Security level (ISPS):** 2 - Heightened
- Port facility security code:** SEKAN - 0123
- Valid ISSC document is onboard:** Yes
- International Ship Security Certificate (ISSC):** Edit
- Route:**
 - Current port of call - 2016-04-24 - Karlshamn
 - 1st prev. port of call - Sydney (Edit)
 - 2nd prev. port of call - Buenos Aires (Edit)
 - 3rd prev. port of call - Rio de Janeiro (Edit)
 - 4th prev. port of call - Hong Kong (Edit)
 - 5th prev. port of call - New York (Edit)
 - 6th prev. port of call - Amsterdam (Edit)
 - 7th prev. port of call - London (Edit)
 - 8th prev. port of call - Helsingfors (Helsinki) (Edit)
 - 9th prev. port of call - Oslo (Edit)
 - 10th prev. port of call - Stockholm (Edit)
- Ship-to-ship activities:**
 - Any activities before arrival:
 - 1. 2016-01-01 - Passenger movement (Edit)
 - 2. 2016-01-03 - Taking bunkers (Edit)
 - 3. 2016-01-05 - Changing crew (Edit)
 - 4. 2016-01-07 - Taking supplies (Edit)
 - 5. 2016-01-09 - Repair (Edit)
 - 6. 2016-01-11 - Miscellaneous (Edit)
 - 7. 2016-01-13 - Crew movement (Edit)
 - 8. 2016-01-15 - Quarantine inspection (Edit)
 - 9. 2016-01-17 - Unloading cargo (Edit)

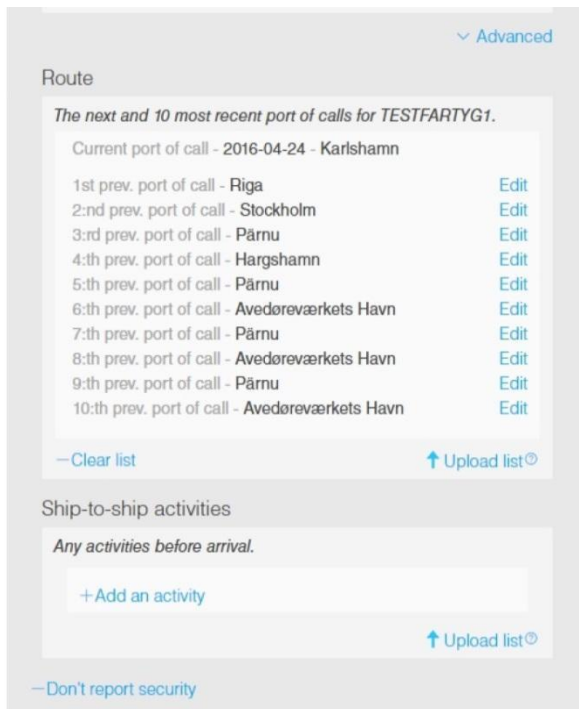

When you upload the Excel file, it looks as described above. The information in the file is automatically positioned in the right place.

Would you rather enter all data manually you fill in the "Port Facility Security Code." Press "yes" to ISSC document and specify the "type of document" and "document number".

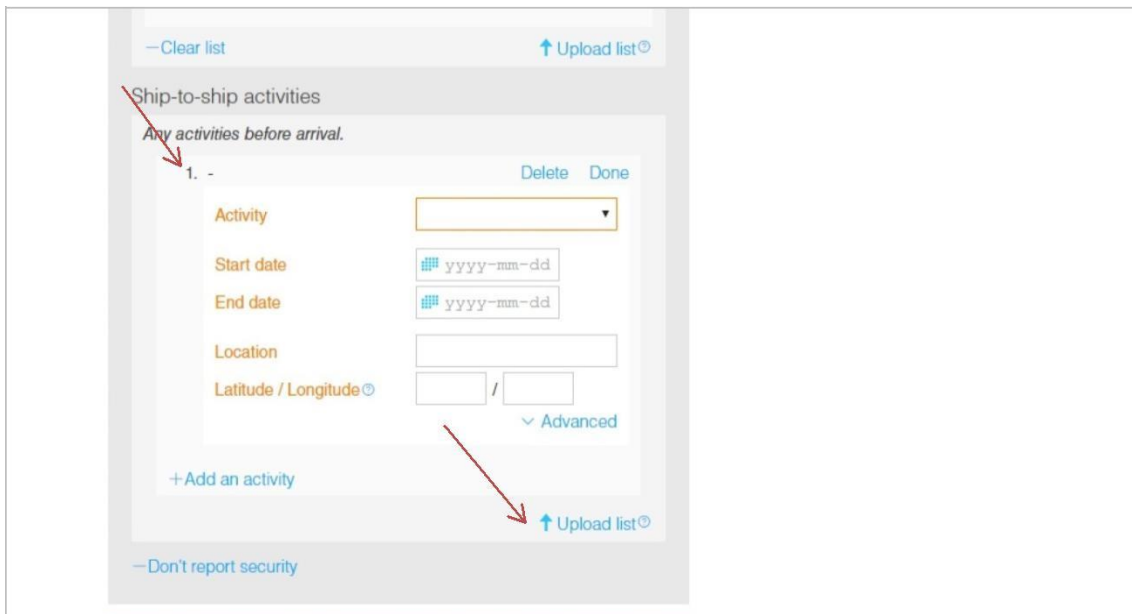

"Port facility security code" you can find by signing up for a free account at the following website:

<https://webaccounts.imo.org/Common/WebLogin.aspx?ReturnUrl=https%3a%2f%2fgisis.imo.org%2fPublic%2fISPS%2fDefault.aspx>

For the ten last calls, fill in "UN Locode", "Port Facility Security Code", "ATA/ATD" and "Security level" for every call.

This is how it looks like when you have chosen to report the last ten calls manually.

Activities such as bunkering and lightering (prior to arrival) should be reported under “ship-to-ship activities”. Fill in “Activity”, Start/End date”, “Location” and “Latitude/Longitude”. Press “Done”.

Sanitary Certificate (SAN)" and "Declaration of health"

Under the tab for Health you report "Sanitary Certificate (SAN)" and "Declaration of health". Click in the box "A valid sanitary certificate exists onboard".

Declaration of health may be reported if the ship arrives to a Swedish port from a foreign port and must be submitted at the latest on arrival.

▼ Health Report created

A valid sanitary certificate exists onboard

[+Add information regarding sanitary certificate](#) ⓘ

Infectious substances onboard ⓘ

The ship or anyone onboard has visited infected areas ⓘ

[—Don't report declaration of health](#)

Declaration of health is mandatory if:

- **Infectious substances onboard**
- **The ship or anyone onboard has visited infected areas**
- **Infectious disease onboard** (According to Law (2006:1570) protection against international threats to health)

Is there none of this, your reporting on "Health" is completed and you can proceed.

Goods to declare

Here you report cargo to be unloaded.

Here are three tabs: "No declaration reported" and "Vehicle". Depending on whether the previous port is outside EU, also "All cargo at arrival". This is the part of MSW where you report cargo to be cleared through customs.

If you choose to report cargo declaration under "No declaration reported", you will see the tabs "Cargo to unload" and "Cargo to load". Depending on whether the previous port is outside EU you will see "All cargo on arrival".

Note that when you click on "+Report cargo declaration for unloading of foreign goods", it becomes mandatory to continue this reporting.

Note that the total weight of all cargo to unload should be stated in the "overview".

All cargo at arrival

All cargo at arrival – **only when the previous port is outside the EU.**

Pre-arrival information regarding goods entering the European Union shall be submitted to the customs office of entry in the first EU country to which the transport arrives. Entry summary declarations must be submitted electronically, through the relevant system of the Customs administration. When the first office of entry in the EU is located in Sweden, a reference to the entry summary declaration should be reported in MSW Reportal. More information can be found at tullverket.se.

You can choose to enter the reference to the entry summary declaration (ENS), either with an MRN number (ENS) or with an Entry key.

▼ Goods to declare

All cargo at arrival | Cargo to unload | Cargo to load | 0 vehicles

MRN, reference to pre-logged ENS
MRN-numbers of all cargo at arrival ⓘ

+Add new item

Entry key information declared in pre-logged ENS

Receiving EU country ⓘ -

Estimated arrival date ⓘ yyyy-mm-dd

Exempt from declaring Entry Summary Declarations (ENS)

When you select "+Report Cargo Declaration", you will see the tab "Cargo to unload" and "Cargo to load" and also "All cargo at arrival" (depending on what you selected for "Purpose of call").

Note that the total weight of all cargo to unload is stated in the "overview".

MRN number:

The reference number (MRN) generated by the Customs administration's system is the reference that you as a user should enter in MSW Reportal to report that the goods have arrived in the Union. References (MRN) should be reported for all arriving cargo and not only for the cargo to be unloaded. Consequently, when the first office of entry in the EU is located in Sweden, you must enter all MRN (ENS) numbers, for all cargo on board the vessel, in the "All cargo at arrival" tab. Enter the MRN in the field "MRN numbers of all cargo at arrival" "+Add new item".

Entry key:

When there are many MRN numbers to be entered, you can instead enter information about the vessel's "entry key". The "entry key" is generated by a number of items. Users need to enter information about receiving EU countries and the estimated arrival date specified in the entry summary declarations (ENS), in the "All cargo at arrival" tab. Enter the EU country in the field "Receiving EU country" and the date in the field "Estimated arrival date".

The vessel changes "route" to Sweden from another EU country:

When the entry summary declaration (ENS) has been submitted in an EU country other than Sweden, information about which EU country has received it together with the estimated arrival date must be provided. Specify the "Receiving EU country" and "Estimated arrival date" in the "All cargo at arrival" tab. You do not need to submit an ENS for goods from Norway, because Norway is part of the EU security zone, through an agreement with the EU. See the link below for more information.

<https://www.tullverket.se/eng/business/transportinggoods/entryandexitsummarydeclarations>

If there is an exception to leave a pre-notification, please state this.

NOTE! If you tick the box "Exempt from declaring Entry Summary Declarations (ENS)", the other fields should be left blank.

▼ Goods to declare All cargo at arrival Cargo to unload Cargo to load 0 vehicles

Exempt from declaring Entry Summary Declarations (ENS)

Cargo to unload

Presentation notification for goods entering the customs territory of the Union should always be given to the customs authority. The requirement to present goods to customs only applies to goods that are unloaded in Sweden. Please note that you need a specified place where the goods are to be stored. A specified place is an approved place by Swedish Customs, or that an import declaration has been submitted in advance if the goods are to be imported directly.

For permission to unload at arrival the information about the goods to be unloaded needs to be in place latest at ATA.

For the cargo declaration to be approved, all goods to be unloaded must have been presented to Customs.

▼ Goods to declare All cargo at arrival Cargo to unload Cargo to load 0 vehicles

Presentation notification for goods ⓘ

+ Add presentation notification for goods

↑ Upload list ⓘ

Goods to be unloaded ⓘ

+ Add goods

– Remove cargo declaration. No foreign goods to unload.

For **Presentation notification** you need to report

- reference to the entry summary declaration (MRN number) for non-Union goods.
- reference to the Proof of Union Status e.g. PoUS MRN för Union goods.

For **goods to be unloaded** you need to report

- port of loading
- origin of the goods
- weight
- type of goods and commodity code
- If the goods to be unloaded are from EU, you need to provide Proof of Union Status e.g. PoUS MRN.

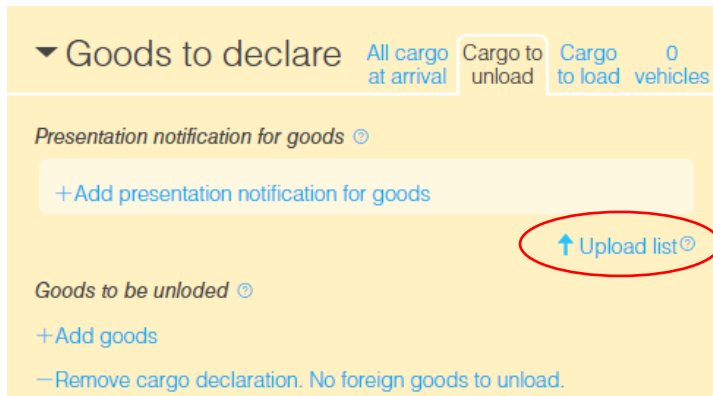

You can read more about **Ship's report and customs clearance** of ships [here](#).

Presentation notification for goods

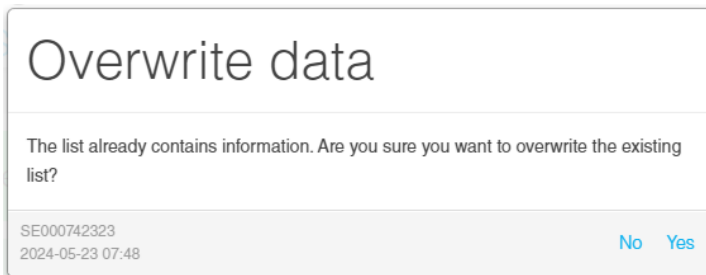

For **non-Union goods** the presentation notification should refer to the entry summary declaration (ENS). You can read more [here](#).

For **Union goods** the presentation notification should refer to the Proof of Union Status). You can read more [here](#).

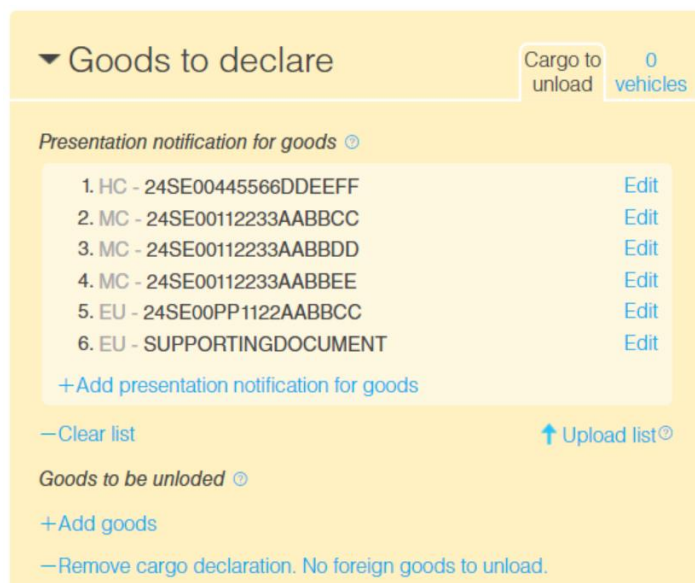

Report through an Excel file

You can upload the information about presentation notification by uploading an Excel file. To do so choose “**Upload list**” or drag and drop the file into Goods to declare.

If there already is information in "Presentation notification for goods" when you upload the Excel file, that information will be overwritten.

The information will be shown sorted in the order Master Consignment, House Consignment and EU.

Information can manually be added or edited after uploading the Excel file.

Report manually

You can report the information of the goods manually in the interface.

The screenshot shows a yellow interface titled 'Goods to declare'. At the top right, it says 'Cargo to unload 0 vehicles'. Below this, there is a section for 'Presentation notification for goods' with a circled '+Add presentation notification for goods' button. Below that is a section for 'Goods to be unloaded' with '+Add goods' and '-Remove cargo declaration. No foreign goods to unload.' buttons.

To do so choose “+Add presentation notification for goods”.

Origin of the goods = EU

For **Union goods** the presentation notification should refer to the Proof of Union Status e.g. PoUS MRN. If the total value of the goods does not exceed EUR 15 000, you can still use invoices and transport document as Proof of Union Status.

If using supporting documents enter "SUPPORTINGDOCUMENT" in the field "Proof of Union Status"

The screenshot shows the same 'Goods to declare' interface. The 'Presentation notification for goods' section now shows a list with one item. The 'Origin of the goods' dropdown menu is open, showing 'EU' selected and circled in red, and 'Non-EU' as an option. There are also 'Delete' and 'Done' buttons for the list item.

Choose the **Origin of the goods**.

When unloading Union goods enter **EU**.

As Proof of Union Status enter:

PoUS MRN

or

“SUPPORTINGDOCUMENT”

Add one new row per reference “[+Add presentation notification of goods](#)”. When using supporting documents report the value “SUPPORTINGDOCUMENT” as Proof of Union Status. You only need to report it once

even if you upload multiple documents.

You also need to upload a goods manifest under the section “Documentation”.

Non-Union goods

For **non-Union goods** the presentation notification should refer to the entry summary declaration (ENS).

You can present on master level, when doing this you will present the whole ENS. Enter the ENS MRN and the associated transport document number on master level. No further information is required.

If you wish to present only **parts of an ENS** you can provide information on **house level** or present a specific **container number** or **receptacle**. When presenting container or receptacle you also need to enter the ENS information on Master level.

It is possible to combine the different ways of reporting.

Keep in mind that if you create a row with only ENS at the master level (without container or receptacle), you will present all the goods that the ENS covers.

When unloading non-Union entre Enter the **origin of the goods - Non-EU**.

Goods to be unloaded

If you are unloading foreign goods at least one row with information about the goods needs to be reported. If you are about to unload both Union goods and non-Union goods you need to report at least one row for the C-status goods and one for the N-status goods.

You also need to upload a cargo manifest under the section “Documentation”.

The screenshot shows the 'Goods to declare' section with a 'Cargo to unload' counter at 0 vehicles. Under 'Presentation notification for goods', there is a '+Add presentation notification for goods' button and an 'Upload list' button. Under 'Goods to be unloaded', the '+Add goods' button is circled in red. Below it, there is a note: '-Remove cargo declaration. No foreign goods to unload.'

Under the section “Goods to be unloaded” select “+Add goods” to add row.

Reporting Union goods (C-status)

The screenshot shows a detailed entry for a Union good. The 'Goods to be unloaded' section contains one item: '1. NL Amsterdam ⇒ SE Stockholm'. Below this, there are fields for 'Port of loading' (NLAMS - Amsterdam), 'Origin of the goods' (EU selected), and buttons for '+Add goods', '-Clear list', and '-Remove cargo declaration. No foreign goods to unload.'

Enter the “Port of loading”.

Choose the “Origin of the goods” - “EU” for Union goods.

After reporting the status of the goods you need to report the type of goods, see “Type of goods”

Reporting non-Union goods (N-status)

Unloading cargo that are under the Customs supervision - Vehicles

▼ Goods to declare All cargo at arrival Cargo to unload Cargo to load 1 vehicles

All vehicles ⓘ

1. ... Delete Done

Registration number

Non-EU cargo

[+Add new item](#)

[-Clear list](#) [↑ Upload list ⓘ](#)

Here you report the registration number of the vehicle that accompanies the vessel.

Restrictions:

- One vehicle per row.
- A maximum of 35 characters per row.

If it is known, you should also check the box “Non-EU cargo” if the vehicle brings goods from a non-EU country.

You can choose to enter all vehicles manually in the interface, or by upload an Excel file via “[Upload list](#)”.

	A	B
1	Version: 1.11, 42558	
5	* VEHICLES	
7	*Registration number	*Non EU Cargo
8	ABC123	Yes
9	DEF456	No
10	GHI789	No
11	JKL012	No
12	MNO345	Yes
13	PQR678	No
14	STU901	No
15	VUX234	No
16		
17		

If you choose to report via the Excel file, you do this in the tab "Vehicles".

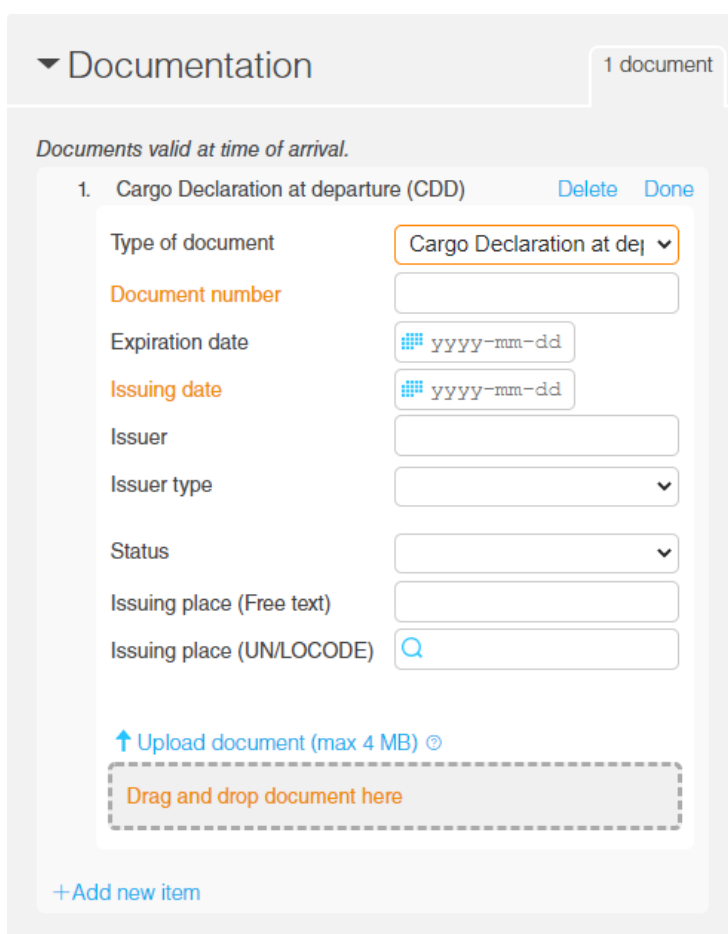

Enter vehicle registration number and if the vehicle brings goods from a non-EU country.

If you need to upload manifest, do so under the section "Documentation".

Loading cargo that are under the Customs supervision

When you report cargo to be loaded, this should be described by upload manifest under the section "Documentation".

Here you select "Cargo Declaration at Departure" under "Type of document".

Then fill in the required information - document number and the date when the document is issued.

The other information is optional (not mandatory).

The document in question is attached by selecting "Upload document" or "Drag and Drop".

NOTE! The following is important to remember when you attach documents.

When you choose to attach the document, it is important that you also perform the step "Upload document". If this step is not performed, the relevant authorities only to get an indication that the document exists and that it will be sent later. To ensure that the right document is attached at the right time, the Customs recommend that you attach documents at the same time as you report other information.

Deletions of document - In this dialog, you can also "Delete" a document. The Swedish Customs saves all documents that have been submitted. If you choose "Delete" the document will be disabled at the Swedish Customs.

If the Swedish Customs has made a decision on an attached document, the Customs does not allow the attached document to be removed. Any attempt to remove the document after a decision will be rejected with an error message. Should such situation arise, it is important that you have the reference number of the document and the document to restore the information in MSW Reportal.

Empty containers

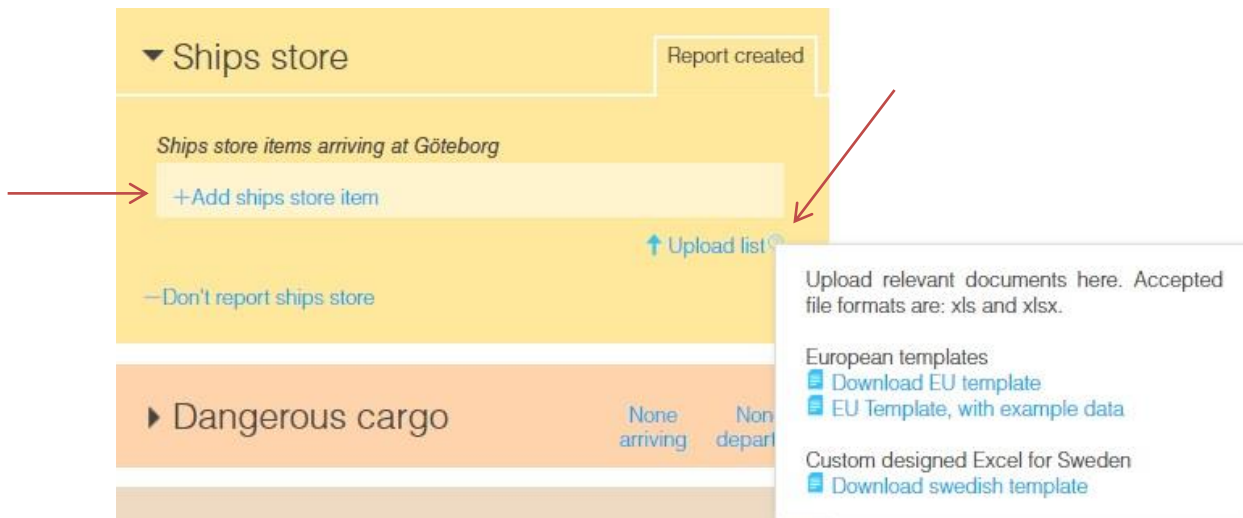

Empty containers must be included on a ship's manifest on arrival and departure.

If the ship arrives from a country outside the EU customs security area (which includes all EU member states as well as Norway and Switzerland) an Entry summary declaration (ENS) or an Exit summary declaration (EXS) respectively should be provided when another shipping company's empty container is unloaded or loaded during a transport arrangement.

For the shipping company's own empty containers that are unloaded and loaded respectively, neither an ENS nor an EXS needs to be provided. If this is the case, tick the box "Exempt from declaring Entry Summary Declaration (ENS)" in the "All cargo at arrival" tab, and enter the reason for the exemption in the "Additional information" field.

If the containers are supposed to be loaded with goods and then re-exported, temporary admission with relief from duties will be granted for these empty containers upon arrival.

Ships Store

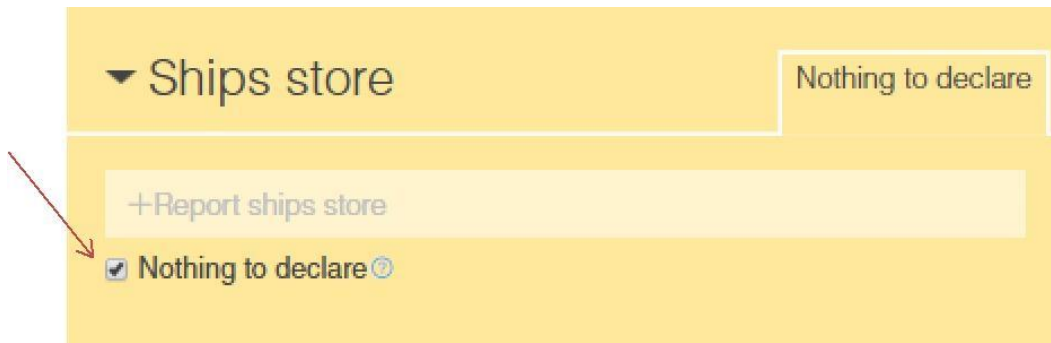

Vessels arriving to a Swedish port should report the contents of the Ships Store (equivalent FAL 3). You can choose to upload a completed Excel file containing all required parts, or enter the information manually.

Click on the question mark to download the Excel file. You can download the following files:

- EU-template (European standard)
- EU-template with example data to see in what format the information should be specified in
- Swedish template with “drop downs” (locked for editing)

SHIP STORES		
Name of article	Quantity	Unit

Ammunition	0	Number of articles
Animals	0	Number of articles
FortifiedWine	0	Litres
LightWine	0	Litres
Beer	0	Litres
Miscellaneous	0	Number of articles

If you have nothing to declare for a specific article/item, keep the zero (0). Only articles/items with a quantity over zero declared. Specify the article/item and enter the quantity with only numbers.

Dangerous and polluting goods

▼ Dangerous cargo None arriving None departing

Dangerous and polluting goods arriving at Göteborg.

[+Add arriving goods](#)

All ships, irrespective of size and departing from a Swedish port or anchorage with dangerous or polluting goods on board, shall make a Hazmat notification. This notification applies regardless of

whether the ship sails in national or international traffic.

Furthermore, ships, irrespective of size and coming from a port located outside the EU and bound for a Swedish port or anchorage with dangerous or polluting goods on board, shall make a Hazmat notification.

When must the Hazmat notification be submitted?

- When leaving a Swedish port:
 - at the latest at the moment of departure.
- Coming from a port located outside the EU:
 - at the latest upon departure from the loading port outside EU; or
 - as soon as the port of destination or the location of the anchorage

What is considered as dangerous or polluting goods?

The following is categorized as dangerous goods:

- Dangerous goods in packaged form (e.g. drums, jerricans, boxes, bags, gas cylinders) loaded in CTUs (e.g. vehicles or containers) in accordance with the International Maritime Dangerous Goods Code (**IMDG Code**).
- Solid dangerous goods loaded directly into a dry cargo ship in accordance with the International Maritime Solid Bulk Cargoes Code (**IMSBC Code**).
- Liquid dangerous goods or hazardous chemicals loaded directly into a chemical ship in accordance with the International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk (**IBC Code**).
- Liquefied dangerous goods or dangerous goods in gaseous form loaded directly into a gas tanker in accordance with the International Code for the Construction and Equipment of Ships Carrying Liquefied Gases in Bulk (**IGC Code**).
- Irradiated nuclear fuel, plutonium and high-level radioactive wastes in packaged form loaded into a dry cargo ship in accordance with the International Code for the Safe Carriage of Packaged Irradiated Nuclear Fuel, Plutonium and High-Level Radioactive Wastes on board Ships (**INF Code**).

The following are categorized as polluting goods / substances in accordance with the International Convention for the Prevention of Pollution from Ships, 1973 as modified by the Protocol of 1978 (**MARPOL Convention**):

- Oils in bulk in accordance with **MARPOL Annex I**, loaded directly into an oil tanker.
- Noxious liquid substances carried in bulk in accordance with **MARPOL Annex II** loaded directly into a chemical tanker.
- Harmful substances carried in packaged form in accordance with **MARPOL Annex III** loaded in CTUs (e.g. vehicles or containers).

The screenshot shows a form titled 'Dangerous cargo' with a sub-header 'Dangerous and polluting goods arriving at Göteborg.' It includes fields for 'Port of loading', 'Port of unloading', 'Name of person in charge', 'Phone to person in charge', 'Loading plan onboard' (Yes/No), and 'Email to person in charge'. There are also buttons for '+ Add arriving goods' and '- Clear list'.

You enter arriving dangerous goods (when coming from a port outside EU) and/or departing dangerous goods (when leaving a Swedish port with dangerous goods).

- In which port was the Hazmat loaded?
- In which port will the Hazmat be unloaded?
- Name and telephone number of the person responsible for the Hazmat and can provide detailed information about the dangerous or polluting goods

and its location on board (this contact information is important in the event of an accident).

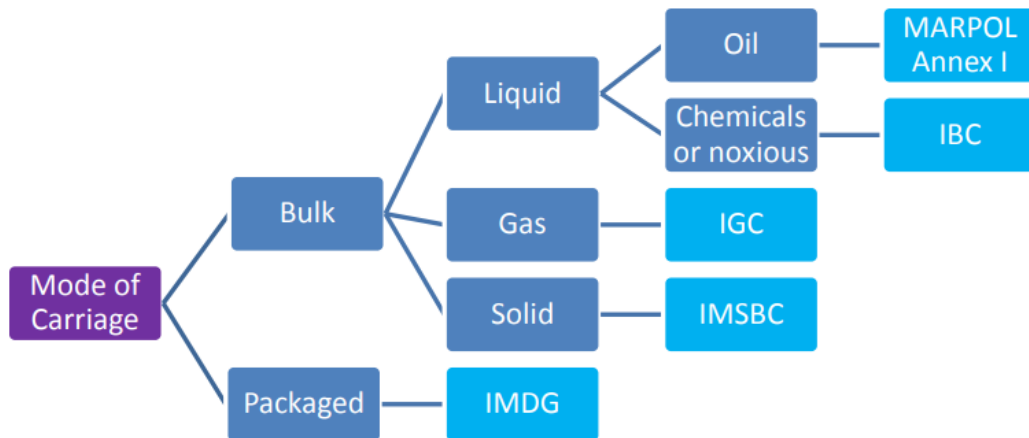

– Indicate whether there is a loading plan on board or not and from which link (URL) the loading plan is accessible. Also specify the file format.

The screenshot shows a form titled 'Dangerous cargo' with a sub-header 'Dangerous consignments arriving at Göteborg.' It includes a dropdown for 'Goods' with a search box, and fields for 'Net' and 'Total' weight/amount. There are also buttons for '+ Add goods item', '+ Add arriving consignment', and '- Clear list'.

In the box "goods", you search for the product you want to report by enter the UN-number or transport name. Now comes a list of different products in different regulations and codes. Note that the same product can be found in several regulations and codes.

For example: oil is specified in MARPOL Annex I for oil tankers but also in packaged form as UN 3082 in the IMDG Code.

Enter "weight or amount" of the goods.

For an overview of what to report, see the Hazmat decision tree above.

Any type of dangerous or polluting goods connected to the regulations can be found in this searchable database.

If the departing dangerous or polluting goods are the same as for arriving you can choose to copy this by choosing “[Copy arriving consignments](#)”.

Bunker

Bunker onboard at arrival to Karlskrona

+Add new item

↑ Upload list ⓘ

Bunker reporting is for the time being optional in Sweden. Other requirements may apply in other EU Member States. The information is however important in case of an event leading to possible risk of discharge of polluting products into the sea and therefore the Swedish Transport Agency recommends that bunker is reported by vessels over 1000 GT at departure from a Swedish port (or anchorage) and at arrival from a non-EU port.

In the excel file you can use maximum four numbers and two decimals for each bunker type. ←

The bunker information is reported by specifying bunker type, quantity and unit (metric ton (TNE) or cubic meter (M3)).

If you choose "Other" as "Type" you must also fill in "Description".

Waste

Advance waste notification, and delivery of waste, is mandatory in Swedish ports unless the ship has a valid exemption issued by the Swedish Transport Agency.

If the ship has small amounts of waste onboard, deemed unreasonable to deliver to a port reception facility (including sludge and bilge water less than 25 % of the tank capacity), waste declaration shall be reported even if it is not mandatory to deliver the waste.

If the ship has an exemption from reporting waste issued by the Swedish Transport Agency, select “NO” for “Will deliver waste” and “YES” for “Exemption issued by STA”.

If the ship has small amounts of waste onboard, deemed unreasonable to deliver to a port reception facility (including sludge and bilge water less than 25 % of the tank capacity), select “NO” for “Will deliver waste” and “NO” for “Exemption issued by STA”.

Advance waste notification shall be reported at least 24 hours prior to arrival, or at the latest upon departure from the previous port, if the duration of the voyage is less than 24 hours.

In case information about the next port of call is available less than 24 hours prior to arrival, the waste notification should be reported as soon as the port of call is known.

The screenshot shows the 'Waste' form in MSW Reportal. At the top, there is a 'Waste' dropdown menu, a 'Report created' status indicator, and a 'Will not report waste receipt.' checkbox. Below this, there are three radio buttons for 'Will deliver': 'All', 'Some', and 'None'. The 'Date of last delivery' field is a date picker showing 'yyyy-mm-dd'. The 'Last port where waste was delivered' field is a search input. Below these is a section titled 'Waste to be delivered in Norrköping' with a '+Add waste' button and an 'Upload list' button. At the bottom left, there is a '-Delete waste notification' link.

The waste notification must indicate whether you intend to deliver all or none of the waste. Partial delivery is not allowed in Swedish ports, and once a waste delivery has started, the ship has to deliver all its waste.

You can report waste manually in MSW Reportal or using the Excel file (see chapter: Upload the excel file for the whole visit). Click on “↑Upload list” to upload the Excel file.

To manually report waste in MSW Reportal the following form must be filled in:

The screenshot shows the detailed 'Waste' form in MSW Reportal. It includes the same top section as the previous image. Below the 'Waste to be delivered in Norrköping' section, there is a table for entering waste data. The table has columns for 'Waste type', 'Waste to be delivered', 'Time for delivery', 'Capacity', 'Retained on board', 'Generated', 'Delivered at last port', and 'Next port for delivery'. Each field has a corresponding input type: a dropdown for 'Waste type', a text box with 'm³' for 'Waste to be delivered', a date picker for 'Time for delivery', and text boxes with 'm³' for 'Capacity', 'Retained on board', 'Generated', and 'Delivered at last port'. A search input is provided for 'Next port for delivery'. At the bottom of the table, there are buttons for '+Add waste', '-Clear list', and '-Delete waste notification'. An 'Upload list' button is also present at the bottom right.

Mandatory information is identified by different color of field names. Explanatory guidance can be found under “?” icons for each data field.

- “+Add waste” can be used to add additional waste types.
- “-Clear list” can be used to delete reported waste types.
- “-Delete waste notification” can be used to remove the entire waste report.

Waste receipt

Under “Waste” there is an option to leave a waste receipt related to your waste delivery. If you intend to create a waste receipt, select “yes”, else select “No”.

Select “+create waste receipt” to manually report your waste receipt.

You can report waste receipts manually in MSW Reportal or using the Excel file (see chapter: Upload the excel file for the whole visit). Click on “↑Upload list” to upload the Excel file.

Create a waste receipt

If creating a waste receipt manually, this form must be filled.

- “+Create waste receipt” can be used to add additional waste receipts.
- “-Delete receipts” can be used to delete reported waste receipts.

Save your receipt by selecting “Done”. After that you can add your waste.

Expanded inspection

If a foreign vessel is eligible for an expanded inspection and bound for a Swedish port or anchorage, this shall be reported 72 hours in advance or at the latest, at the time the ship leaves the previous port, if the voyage time is less than 24 hours under the tab for expanded inspection. This applies to, for example, foreign ships with a high risk profile, passenger ships, oil tankers, gas carriers, chemical tankers and bulk carriers. If not, you can ignore this tab.

Enter information in all fields marked in orange then press “Done”

Fairway declaration

▼ Fairway declaration No declaration

I will report a fairway declaration? Yes No

Vessels loading or unloading cargo or passengers should report a fairway declaration. To submit a declaration fairway, you must have a credit agreement signed with the Swedish Maritime Administration.

If no goods will be loaded/unloaded and no passengers will disembark/embark you are not obligated to report a fairway declaration for this visit.

▼ Fairway declaration No declaration

I will report a fairway declaration? Yes No

[+Create fairway declaration](#)

If you intend to report a fairway declaration, state YES and then you can continue with your reporting. A fairway declaration must be reported no later than 7 days after departure.

▼ Fairway declaration Nothing to declare

I will report a fairway declaration? Yes No

Reason

- Bunkering or loading/unloading within the same port area
- Crew change
- Damaged cargo
- No loading/unloading cargo or passengers
- Research/training vessel
- Ship supplies
- Shipyard/dock/repairing
- Towage
- Working vessel with direct connection to shipping
- Other reason

If you don't intend to report a fairway declaration, state NO. Then specify the reason for this according to the alternatives in the picture.

Click "Create fairway declaration".

Under each category we have tried to specify the most common types of goods, in some cases with a collective name. If you choose, for example, "Gasoil", you then have to choose which specific type of gasoil is shipped.

However, specific choices do not exist under all categories. In most categories there is one code that represents the category.

Code	Description
39159080	Waste, parings and scrap, of plastics (excl. that of polymers of ethylene, styrene, vinyl chlorid...
✉	KN8 39159080 is 2021 considered by SMA as low value goods within Sweden (Loaded domestic goods).
✉	KN8 39159080 is 2021 considered by SMA as low value goods when loaded domestically.
✉	KN8 39159080 is 2021 considered by SMA as low value goods when imported (Unloaded foreign goods).

For the low value goods, you can see with the symbol "envelope" at which transport type the goods are counted as low-value.

If you have forgotten to report a fairway declaration, you will receive a reminder in MSW in the form of the above.

Orange background, warning triangle and the port call ends at the top. This will make it easier for you to see which port calls you have forgotten to make fairway declarations on.

To get rid of the message, you need to fill in the fairway declaration or click on the small box "I decline reporting a fairway declaration" but then a reason has to be filled in.

Periodic fairway declaration

The screenshot shows a yellow-themed interface. At the top, there is a header bar with a right-pointing arrow and the text 'Fairway declaration' on the left, and 'Periodic declaration' on the right. Below this is a main content area with a downward-pointing arrow and 'Fairway declaration' on the left, and a rounded box containing 'Periodic declaration' on the right. The main text reads: 'TEST SHIP SAFESEANET FOR MS have the rights the report periodic fairway declaration and this visit has automatically been added to this month's declaration.' Below this text are three buttons: 'Go to periodic fairway declaration' with a circled question mark icon, '+Create fairway declaration', and a checkbox labeled 'Decline from reporting fairway declaration for visit'.

For the vessels that have the right to report periodic fairway declarations, (travels on a fixed timetable, and has received a grant from the Swedish Maritime Administration) it looks a little different in the interface (only the owner/creator of the call can see/do a periodic fairway declaration).

A periodic declaration is specific on:

- Month
- Port city
- Ship
- Organisation

The link is inactivated if:

1. visit is not connected to a periodic fairway declaration
2. the user declines to report a fairway declaration
3. the periodic fairway declaration is connected to another organization
4. the visit is shared to another organization and the other organization has created a non-periodic fairway declaration

Press "[Go to periodic fairway declaration](#)".

Would you rather create a single declaration for the actual visit, you must remove the periodic fairway declaration? Then press the "[Create fairway declaration](#)".

The periodic fairway declarations, you can find directly in the visit list, at the bottom of the page.

Cruise Route

The Swedish Maritime Administration needs information about a cruise to decide if the fairway declaration should be created and if it is duty-free or not.

If you choose the purpose of call "Cruise, leisir and recreation" or "Cruise, turn around" a new block will be shown.

The new block where to add the cruise route is shown below Fairway declaration.

▼ Cruise Route Cruise route: Not reported

Visits included in the cruise route

1. - Delete Done

Port	<input type="text" value="Q"/>	
ETA	<input type="text" value="yyyy-mm-dd"/>	<input type="text" value="hh:mm"/>
Turnaround	<input type="checkbox"/>	

+ Add new item

Add current port city 'Göteborg'
Upload list

All ports which are included in the cruise route must be added also including the port which the port call is for.

You can report the cruise route manually or by upload the Excel-file.

* CRUISE ROUTE	
*Date	*Port (UNLOCODE)
2019-01-01 01:01	SE
2019-01-02 02:02	NO
2019-01-03 03:03	FI
2019-01-04 04:04	GB
2019-01-05 05:05	NL
2019-01-06 06:06	US
2019-01-07 07:07	HK
2019-01-08 08:08	BR
2019-01-09 09:09	AR
2019-01-10 10:10	AU

Start with the port where the cruise started. Add ETA, date and time. (accepted format of date in the Excel EU and Sweden Template 2.0.6 is YYYY-MM-DD or YYYY/MM/DD or YYYY.MM.DD or DD-MM-YYYY or DD/MM/YYYY or DD.MM.YYYY).

Version: 2.0.6

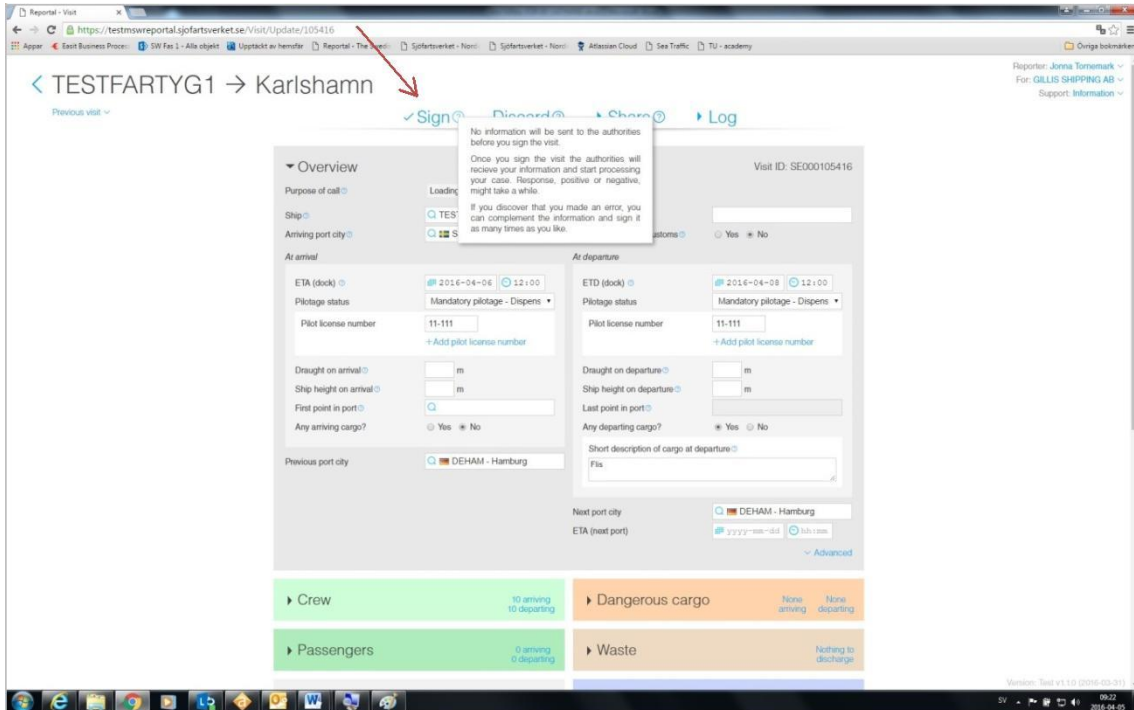

* CRUISE ROUTE	
*Date	*Port (UNLOCODE)
2019-01-01 01:01	SEMMA
2019-01-02 02:02	NOOSL
2019-01-03 03:03	FIHEL
2019-01-04 04:04	GBLON
2019-01-05 05:05	NLAMS

2016-03-07 08:11 - SSNS - SSNS report received
The message processed successfully

2016-03-08 07:51 - SSNS - Invalid SSNS report
ETA to next port must be defined after ATD from port of call.

▶ Overview Visit ID: SE000125

▶ Crew 233 arriving 233 departing	▶ Dangerous cargo 1 arriving No depa
▶ Passengers 1384 arriving 905 departing	▶ Waste Nothin disch
▶ Documentation No documents	▶ Expanded inspection Inspectio Not repor
▶ Security No report	

Orange validation message means that something is wrong and the information is not received. In the statement it says what needs to be changed.

The screenshot shows the Reportal interface for visit TESTFARTYG1 to Oxelösund. At the top, there are navigation buttons: Sign, Discard, Share, and Log. A green message indicates a successful SSNS report received on 2016-03-17 at 19:52. Below this, an orange message indicates an invalid SSNS report received on 2016-03-17 at 19:51, with the error: "ETA to next port must be defined after ATD from port of call." A red arrow points from this message to the Log button. The Log button is highlighted with a dropdown arrow. Below the messages, there is a table of events:

Event	Time	User	Organisation
Submitted	2016-03-17 19:52	spolardnz@wtr001	MSW SUPPORT
Created	2016-03-17 19:50	spolardnz@wtr001	MSW SUPPORT

Below the table, there is an "Overview" section for the visit. It includes fields for Purpose of call, Ship (TESTFARTYG1), Arriving port city (SEOXE - Oxelösund), and various arrival and departure parameters such as ETA, ETD, Pilotage status, Draught, and Ship height. The "Log" button is located at the top right of the overview section.

All validation messages are saved under the tab "Log" so that you can go back to see what is OK and not OK.

Validation messages from the Swedish Coastguard (example)

2016-06-13 14:10 - Kustbevakningen - Information received.
Please wait for further notice.

The information is received. Please wait for an approval or completion.

2016-06-12 08:52 - Kustbevakningen - Information received and processed.

The information is received and processed. This notice is given as OK on arrivals within Sweden (domestic arrivals will not receive an official approval from the Coast Guard).

2016-06-12 11:30 - Kustbevakningen - Notification approved.

Notification in advance (Schengen and ISPS) is approved.

2016-06-11 10:02 - Coastguard - Please update with the following:
"Passport or seamansbook no. / Pass- eller sjömansboknr. (ID-nr. och ID-typ) Issuing authority and expire date of ISSC / Utfärdare och utgångsdatum för ISSC
Saneringsintyg / Sanitary certificate "

The visit information needs to be complemented with passport or seamansbook number, Issuing authority and expire date of ISSC.

2016-07-06 16:16 - Coastguard - Please update with the following:
"Issuing authority of ISSC has to be an organization or a governmental authority / Utfärdare av ISSC måste vara en organisation eller myndighet"

The visit information needs to be complemented with a correct Issuing authority of ISSC.

2016-06-09 12:25 - Kustbevakningen - Please update with the following:
"Maritime Security / Sjöfartsskydd "

The visit information needs to be complemented with maritime security (security level, ISSC and 10 most recent port of calls).

NOTE! Please note that the Swedish Coast Guard may have other types of validation messages.

The visit information needs to be complemented with an outbound cargo manifest (CDD).

2016-07-08 20:40 - Customs - Visit information needs to be complemented

Request for supplement to cargo declaration: please send proof of Union status, e.g. T2L, T2F. Apply to declarant: SE5560089392 Deadline: 2016-07-12T20:39:20.000+0200

The visit information needs to be complemented with a proof of the goods Union status, e.g. T2L or T2F.

2016-07-01 17:24 - Customs - Visit information needs to be complemented

"Tullverket saknar uppgifter motsvarande Ship store (FAL3). Handläggning av ärendet kan inte påbörjas innan uppgifterna inkommit."
 "Information regarding Ships store (FAL3) has to be submitted to Swedish customs in order to start processing the Visit."

The visit information needs to be complemented with information regarding Ship Stores (FAL 3) in order for the Swedish customs to start processing the visit.

2016-07-01 17:24 - Customs - Visit information needs to be complemented

"Tullverket saknar uppgifter motsvarande Crews effects (FAL4). Handläggning av ärendet kan inte påbörjas innan uppgifterna inkommit."
 "Information regarding Crews effects (FAL4) has to be submitted to Swedish customs in order to start processing the Visit."

The visit information needs to be complemented with information regarding Crew's Effect (FAL 4) in order for the Swedish customs to start processing the visit.

2016-06-22 15:11 - Customs - Invalid visit information

"Date must be in the future. [R020] Submitted value: 2016-06-18"

Invalid visit information. Expiration date/Issuing date on uploaded documents need to be in the future.

2016-06-10 08:33 - Tullverket - Besöksinformation ej mottagen/validerad OK

"For each document TypeCode the ID must be unique within one ECD. [R049]"

Invalid visit information. For each uploaded document with the same type code the ID must be unique.

NOTE! Please note that the Swedish Customs may have other types of validation messages.

The Swedish Customs' decision

The Swedish Customs' decisions will come in several rounds. These decisions you will get in MSW Reportal. Below you can find a summary of the decisions that may occur and what is required to get them.

- **Arrival at port:** To get the arrival to port granted, a prior notification must have been submitted by the deadlines specified. You get an electronic message that the arrival is granted. Once you have received the consent you are free to enter the port.
- **Permission to unload:** When you have arrived at the port, you will receive permission to unload. To receive such permission, you must have lodged Entry Summary Declarations for all goods carried on board. Also you must have an authorised place for handling the goods, or at least one import declaration must be submitted in advance. The permission to unload does not mean that you are allowed to remove the goods from the unloading area, the cargo declaration must be approved first.
- **Cargo declaration approved:** For the cargo declaration to be approved, all goods must have been presented to Customs. In addition to the ENS mentioned above, you must provide a reference to the subsequent treatment of the goods (e.g. goods location code or customs ID). You must also state the Customs status of all goods, and provide a reference (MRN) for PoUS for any Union goods to be unloaded or prove that the Union goods value has a value of less than 15,000 Euro
- **Provisioning:** If you have applied for victualling you get will get an approval of this in MSW. The same applies if you have requested for victualling from the ship's stores.
- **Permission to depart:** Approval given through MSW and means that the vessel may leave the port.

It is important that you wait for and check the response messages from the Customs. If any information is missing, the Customs can't make a decision and will then send a request for a supplement. You will then have the option to add the missing information.

Copy visit

< AIDA → Göteborg

Previous visit

If you have a vessel that has the "next port" in Sweden (forthcoming domestic voyage), it is possible to copy the information in the current visit to the next port of call by pressing the "Next visit".

Before creating the next visit, you get the option to choose which information you will copy. You do this by checking the boxes for each category. When finished, press "Create".

- Validation of cargo reporting
 - New picture “Any departing cargo?” and “Any arriving cargo?” (page 16, 54)
 - Update of text, report and write a “Short description of all cargo onboard on departure” (page 16)
 - Message “ETA/ETD has passed. Please enter ATA/ATD or update your ETA/ETD” (page 15, 16)
 - Message “Warning! Nearby visits detected” and shows, which port of call and visit ID (page 16)
-

Version 1.19

Addition:

- When copying a new visit no alternatives are pre-filled and update picture (Page 111).

Changes:

- Timed sharing to MSW Support, the right is granted for 7 days (Page 120)
 - Warning, the sign button turns orange when you choose to leave a visit with unsigned changes (Page 102)
-

Version 1.20

Addition:

- Update of texts and pictures to the Swedish Customs Administration which including purpose of calls for unloading and loading of goods (Page 10, 13, 18, 19, 20, 55, 56, 58, 59, 60, 62, 63, 64, 66, 68, 69, 70, 71, 72, 73, 74, 75, 92, 99, 122)

Changes:

- -
-

Version 1.21

Addition:

- Function to specify service level under the pilot tab has been removed Page (23, 29, 33)

Changes:

- Reporting of goods can now be done at more KN levels. KN4, KN6 or KN8 can be selected (Page 90,91)
-

Version 1.22

Addition:

- Temporary storage declaration (page 58, 110)
- Clarification of permission to unload (page 110)
- Mandatory to report a fairway declaration (page 89)

Changes:

- -
-

Version 1.23

Addition:

- Reporting of goods via a simplified view with categories (page 90-92)

Changes:

- -
-

Version 1.24

Addition:

- Distinct information concerning dangerous goods (page 78-80)

Changes:

- -
-

Version 1.25

Addition:

- Regular shipping service authorization (page 17-18)

Changes:

- -
-

Version 1.26
