User guide for Excel MSWSE Sweden Template 3.0.0

How to download the Excel MSWSE Sweden Template

There are several places where you can find the file and download it to your computer.

1. You can go to <https://www.sjofartsverket.se/en/services/msw-reportal/guidance/> and there you can choose the one you want.
2. When you are logged in to MSW and have created a new visit you can find the file when you press the question mark behind “Upload list”. You can find the file under “Crew”, “Crew’s Effects”, “Passengers”, “Security”, “Ship-to-ship activities”, “Vehicles”, “Ships store”, “Waste”.

When you have downloaded the Excel file to your computer and want to start editing you need to press “Aktivera redigering”. This is Swedish for “activate editing”. You can find this yellow message on the top when you open the Excel file.

Note: As soon as you type in a value that is not accepted in Excel you will get a message:

This means that you can't use a value that doesn't exist in the “reference data” tab.

It is important that the port you want to add in Excel is approved as an actual port. If the port has “1” under the column called [Function](#) it is approved.

Function

If you need to add a port which is not on the list or isn't approved (“1” under function) you need to choose another port as closed as possible to your location which is approved and on the list.

*Location	Latitude	Longitude
	-90	-180
SEGOT		
	-62,24	-122,46

Location: When you type in the location you must use the right UN Locode (XXXXX) for that spot. If the location doesn't exist in the UN Locode list you must choose another one that is as close as possible.

Latitude: Latitude must be written as the example above. In this case -90 translate to S 90° and -62.24 to S 62 °24'00.

Longitude: Longitude must be written as the same way. In this case -180 translate to W 180 ° and – 122, 46 to W 122 °46'00.

We recommend you to use location as far as possible instead of positions because it can be a bit tricky to get the lat/long correctly. Don't fill in lat/long if you already have the Locode filled in.

Unloading Goods

Presentation notification for goods entering the customs territory of the Union should always be given to the customs authority. The requirement to present goods to customs only applies to goods that are unloaded in Sweden.

- For **non-Union goods** the presentation notification should refer to the entry summary declaration (ENS).
- For **Union goods** the presentation notification should refer to the Proof of Union Status. If the total value of the goods does not exceed EUR 15 000, you can still use invoices and transport document as Proof of Union Status.

The origin of the goods determines what information you need to report. You can read more about Swedish customs regulations [here](#).

You can fill this out manually in the interface or by uploading a completed Excel file.
